MINI PROJECT REPORT

TITLE: PROTECTION BASED ON FACE RECOGNITION IN VIDEO STREAMING

This project is a convenience feature to authenticate with system using one's face instead of inputting passcode or scanning fingerprint. Passcode is often limited by the maximum number of digits allowed while fingerprint scanning often has problems with wet fingers or dry skin. Face authentication offers a more reliable and secure way to authenticate.

PROJECT REPORT

TITLE: SCHOOL RECORD MANAGEMENT SYSTEM USING ASP.NET

The project School Record management system will have databases of the courses offered by college, teacher and faculty details. The program here is used for exploring all the activities occurring in college. On the basis of the information report and queries can be generated.
